

Dear Teashi Customers,

It is with heavy heart that I tell you -- after seven years of business, Teashi is closing its doors. There have been many circumstances that have brought us to this decision, and I assure you it was not an easy one to make.

Teashi has been a leader in the beauty industry, offering exceptional nail care in a spa setting and unparalleled sanitation guidelines. We have been a proud member of the San Francisco small business community and an anchor for merchants in the Polk Street district. Our clients are more than customers--familiar faces, friendly smiles and too many delightful conversations to count--they are our friends.

Our last day of business is Saturday, February 4. We apologize about the short notice but the timing was beyond our control. For those who hold Gift Cards, we regret that we won't be able to honor them at Teashi after February 4. I will be working as an esthetician in the area and hope to honor your Gift Card credits within my own field of expertise. I will know where my new practice will be located within the next few days and will update you soon. In addition, I will do my best to connect you to all of the service providers that you have come to rely on and adore. Please feel free to contact us via phone or email if you have any further questions.

We thank you for your support and patronage. Whether it was one appointment or a weekly affair, your time here has always been appreciated. We will miss you.

With deep appreciation,
Loryn Vyvyan and the Teashi Family
